DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of group I, claims ~~32-39~~, in Paper No. 11, filed ^{1-31, 40-61} February 17, 2004, is acknowledged.
2. Upon further consideration, the following species requirement is deemed proper.
3. This application contains claims directed to the following patentably distinct species of the claimed invention:

Species A, drawn to Figs. 1-5;

Species B, drawn to Figs. 6-10 and 16-20;

Species C, drawn to Figs. 11-15;

Species D, drawn to Figs. 21-25 and 27-28;

Species E, drawn to Fig. 26;

Species F, drawn to Figs. 29-33 and 38-40;

Species G, drawn to Figs. 34-35;

Species H, drawn to Figs. 36-37;

Species I, drawn to Figs. 41-45; and

Species J, drawn to Figs. 46-51.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1, 4, 22, 28 and 40 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable

Art Unit: 2652

thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

4. A telephone call was made to George Hartnell (Reg. No. 42639) on March 6, 2004, to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

Art Unit: 2652

application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Drawings

6. Figures 52-54 should be designated by a legend such as --Prior Art-- because only that which is old is illustrated. See MPEP § 608.02(g). A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

Specification

7. The disclosure is objected to because of the following informalities: On page 109, line 7, the specification states "light receiving element 218 (Fig. 15)". This is inconsistent with the appearance of Fig. 15, which lacks reference numeral 218.

Appropriate correction is required.
